

Student Scholarships & Awards – Spring 2019

Department of Integrative Biology

Applications due April 1, 2019

UNDERGRADUATES

- **Eugene Jorgens Memorial Scholarship**
Eligibility: Students must be a zoology major, in good academic standing, and have completed their freshman year. Preference will be given to Wisconsin residents. Graduating seniors are not eligible.
- **John T. Curtis Ecology Scholarship**
Eligibility: Students must be declared in an undergraduate major in the Department of Botany or Department of Integrative Biology. Students in the following majors are eligible to apply: botany, biology (L&S), conservation biology, neurobiology, molecular biology, and zoology. Students must be in good academic standing and have an interest in ecology. Graduating seniors are not eligible.
- **Netzer-Brouchoud Scholarship**
Eligibility: Students must 1. be an undergraduate or graduate student actively working with a faculty member with at least a 50%-time appointment in the Department of Integrative Biology, and 2. be studying wild bird life. Consideration will be given to need, extracurricular activities, and academic standing of student. Students graduating in spring or summer 2019 are not eligible.
- **Undergraduate Summer Research Awards**
Eligibility: Students must be actively working with a faculty member with at least a 50%-time appointment in the Department of Integrative Biology. Students must also enroll in at least two independent research credits (Zoology 681, 682, 691, 692, or 699) under the section number of the faculty member serving as sponsor during either the summer when the research is conducted or in the fall when results are written up.

GRADUATES

- **Graduate Summer Research Awards**
Awards for summer research expenses and/or research stipends. Funds can be used for expenses such as equipment, supplies, and travel related research. Candidates must either be graduate students in the Department of Integrative Biology or have a faculty advisor with at least a 50%-time appointment in the Department of Integrative Biology.
- **John Jefferson Davis Travel Awards**
Provides support for graduate student travel to meetings and conferences. Applicants must either be graduate students in the Department of Integrative Biology or have a faculty advisor with at least a 50%-time appointment in the Department of Integrative Biology.
- **Netzer-Brouchoud Scholarship**
Eligibility: Students must 1. be an undergraduate or graduate student actively working with a faculty member with at least a 50%-time appointment in the Department of Integrative Biology, and 2. be studying wild bird life. Consideration will be given to need, extracurricular activities, and academic standing of student. Students graduating in spring or summer 2019 are not eligible.
- **Rita and Kenneth Hoots Graduate Scholarship**
Eligibility: Applicants must 1. be a graduate student in the Department of Integrative Biology or have a faculty advisor with at least a 50%-time appointment in the Department of Integrative Biology, and 2. demonstrate financial need. Students graduating in spring or summer 2019 are not eligible.
- **William C. Burns and Lemuel A. Fraser Teaching Enrichment Scholarship**
Eligibility: Graduate students who have been teaching assistants for Zoology 101, 102, 151, and/or 152 during their first year (or two semesters) of teaching. Consideration will be given to students who demonstrate promise and excellence in the teaching of introductory courses.

- **Dr. Stanley Weinreb and Dr. Eva Lurie Weinreb Graduate Student Fellowship**

Eligibility: Applicants must 1. be in the final year of graduate study in the department and have completed all doctoral degree requirements with the exception of the dissertation and defense; 2. conduct research in the areas of cell biology and anatomy with the emphasis on structure (ultrastructure) and function of the cell utilizing the tools of microscopy; 3. be a U.S. citizen; and 4. be a student in high academic standing within the department.
